SINCE 2004
NORDIK FOLKLORE

QUÉBÉC, VIKING AND CELTIC MUSIC.

GENRE :

Les Bâtards du Nord are rooted in Nordic Folklore. They sing of actual issues such as returning to the land, preserving traditions amidst industrialization.

These Northern Pagan Warriors deliver their words through enlightening traditional instruments and sounds. Their songs are colourful and will take the audience to a festive and solemn journey into Viking culture.

Uncompromising and proud, Les Bâtards write, sing and scream in French/Québécois. The characters they incarnate are convivial, sarcastic, mysterious yet friendly.

On stage, their instruments and traditional Viking, Slavic and Russian outfits enhance the experience by providing a rich visual component. Their compositions gather influences from Russia, Scandinavia, Britain, Ireland all the way to Québec.

An evening with Les Bâtards is a celebration of their music and the viking traditions and values they infuse their music with.

Let the wild dancing and epic chanting resonate through the night.
